

Two Is Better Than One

From the PAWS *Happy, Healthy, and Safe* Education Series

- Cats lead **healthier and happier** lives if there is another cat in the home.
- They'll each have a **buddy for life**.
- Two cats is as easy as one but **double the fun**.
- **Save two lives** instead of one.
- A single kitten can become lonely. **Kittens miss their littermates**.
- Two kittens tend to "**self-train**" each other.
- An older cat who has a companion cat will remain **more playful and youthful** in its later years.
- Two cats provide each other with **exercise and mental stimulation**.
- There will be **fewer behavior problems**, since two kittens will keep each other occupied and less likely to get into mischief.
- Two kittens serve as **warm little cushions for each other**.
